

Recent Market Volatility and GovMIC's Commitment to Safety of Public Fund Investments

March 16, 2020

The equity and bond markets have made headlines recently with extraordinary volatility. Most impactful for public fund investors is the emergency announcement Sunday, March 15th by the Federal Reserve that it was reducing the target overnight rate by 1.00% to a range of 0.00% to 0.25%. This followed an earlier rate reduction of 0.50% on March 3. Yields for Treasury bonds and similar securities have fallen dramatically, and those lower yields will ripple through bank offerings and investment portfolios like GovMIC.

PFM, as investment advisor and administrator to MILAF+, is actively working to ensure that MILAF+'s investments continue to be aligned with the Trust's goals of safety of principal, liquidity to invest and redeem shares, and a market rate of return. We have process and systems focused on trading, review, and compliance for safeguarding public assets and will continue to rely on them during this time. These include:

1. Frequently reviewing MILAF+'s investments valuation to ensure market changes do not adversely affect current investments. MILAF+'s goal for its portfolio is to maintain a stable net asset value of one dollar in securities (by market value) for every dollar of investment. The Trust's permitted investments are limited to only high quality, short maturity investments, which alleviates much of the risks involved when interest rates move quickly. With the heightened market volatility PFM has added more frequent pricing checks to ensure the stable net asset value is maintained.
2. Updating model scenarios to stress test the portfolios. We routinely look at "what if" scenarios for the MILAF+ portfolio seeking to anticipate impacts to quick changes in liquidity or interest rates. Our natural bias toward safety and liquidity has benefited MILAF+'s portfolio thus far and our stress testing has not shown reason for concern.
3. Managing the portfolio to ensure adequate liquidity. Pursuant to board policy, a substantial portion of the MILAF+ portfolio is included in cash, daily and weekly liquidity buckets calculated pursuant to Securities and Exchange Commission criteria also utilized for registered money market mutual funds. The diversity of our investor community is one of our strengths and we are confident in the balance of invested funds for liquidity needs.

We anticipate no interruption in working with GovMIC investors. During this time we have asked our employees to limit their travel and conference participation, and where possible, hold client meetings virtually or by phone. PFM has a liberal leave policy for all employees and we encourage its use, especially for those who do not feel well or have increased family responsibilities on account of the coronavirus. Many of our employees have been working from home in recent weeks. We have confirmed our

capabilities to support remote workers through our systems as one area of our robust business continuity plan and expect to implement a Work from Home plan for most employees shortly.

We appreciate the continued trust you have in investing with GovMIC. Please contact your GovMIC marketing representative or Client Services at 844-846-8642 if we can help answer any questions about your investments.
